## WORK EXPERIENCE

### Freelance

Full Stack Developer

Jan 2020 - Present

- Developed an enterprise solution application utilising Python, Django and SQL to analyse and track employee work hours
- Designed and proposed wireframes to meet changing requirements
- Collaborated extensively with clients to deliver requirements in an incremental and iterative process
- Demonstrated exceptional production work, resulting in additional collaborations and successful business deals

### SMU .Hack Club

Front-end Developer

Dec 2022 - Jan 2023

- Established and customised client-side project framework utilising React.js and Shopify Polaris
- Developed a mobile-responsive UI, closely adhering to the prototype design specifications
- Received praise from the project manager for delivering exceptional and efficient results

### Nanyang Polytechnic

Automation Developer

Jul 2020 - Sep 2020

- Gathered requirements, successfully automated HR processes, boosting team productivity
- Increased automation speed by 33.3% through code refactoring
- Developed and implemented an algorithm that sorts emails using machine learning and automation techniques
- Developed with: Python, UiPath, Data Science Libraries

### Nanyang Polytechnic

Full Stack Developer

Mar 2020 - May 2020

- Constructed and sustained a web application utilising both front-end and back-end technologies
- Developed a chatbot and an LMS with full content management functionality
- Built with: Python, Flask, HTML, CSS, Bootstrap, Javascript, Data Science Libraries

## PROJECT WORK

---

### Singapore Management University, Singapore Second Year Project

Project Title: Productivity for Learning

Jan 2022 - Apr 2022

Technology: Vue.js, Vuetify, Firebase, Chart.js

- Designed a forum platform enabling verified students and instructors to enhance learning through Q&A sessions
- Guided the team, established direction, organised team project environment, and achieved successful deployment
- Communicated effectively and collaborated with team members using GitKraken and Notion tools

## PERSONAL PROJECTS

---

### Anico Ecommerce | [Github](#)

Technology: React, REST API, GSAP, Python, Flask, SQL, Bootstrap, HTML/CSS, JS

Developed a full-stack application with an attractive, user-friendly design and optimised for responsiveness

### Linkvine | [Portfolio](#)

Technology: Python, Flask, AWS, SQL, Bootstrap, HTML/CSS, JS, AWS

Developed a “linktree” inspired web app that allows you to create a personalised and easily-customizable page, that houses all the important links you want to share with your audience

### Dottie Dating App | [Demo](#)

Technology: Figma

Dottie is a dating app with a simple design. The orange theme evoked feelings of enthusiasm, which will motivate users to utilise the app more frequently
